Extra curricular activities

I have a major interest in both the social and cultural environment, and have amongst other things worked as a camp leader for kids, with many of them being of special needs. I have also been a founding member of non-profit organization (OSKADD), started in 2017, that arrange cultural events like concerts, exhibitions and art shows. I have studied Sociology (Jan - July 2019), and Idea of Science (August 2019 - Feb 2020). I have a big interest in game and film music, and aspire to work full time as a composer. I also produce and perform live with my own music under the name WIIG.
